Synopsis

- I have the 1.11 months of experience(Internship) in the Testing field at Shaligram Infotech and looking the opportunity in java developer as fresher
- Knowledge of the building web forms with JSP and Servlets.
- object-oriented programming concepts, flow control, method parameter and return type, core concepts, arrays, collections, debugging, generics, multi-threading, Lambdas, and file handling under Java.
- GIT Operations . Create and deploy Servlets, understand Servlet Lifecycle, and JSTL core tags. MVC in JSP.
- Good Knowledge of the Database operation.(SQL Sever)
- Good Knowledge about linux like System Access And File Systems ,Linux Fundamentals,Linux System Administration,System Updates ,FTP,SCP,RSYNC,SSH,Web Server
- Having the knowledge about the Amazon Web Services Cloud Watch,SNS, S3,EC2,Route 53
- Good Knowledge of Software Development Life Cycle and Software Testing Life Cycle processes.
- Learner in Web, Desktop, Mobile application and Web services testing
- Having knowledge in performance of build validation & verification, Positive & negative, boundary value analysis, Equivalent classes partitioning, smoke & sanity, functional, Integration system, Regression, Ad-hoc, Exploratory, cross Browser & User acceptance tests.
- Strong interpersonal and communication skills
- Ability to adopt new technologies and approaches.

Project Experience

1) Project Name: CCR

Responsibilities: Documents Analysis, Responsible for Black Box Testing, Involved in Manual Testing of the Application, Responsible for Functional Testing, System Testing and Regression Testing, Interacted with developers, users and various members of my team to discuss and to resolve defects and their priorities, Participated in peer reviews of test cases, Functionality Testing, Re-testing, End-to-End Testing, Server Updating.

Project Description: A system that helps Pickup and Drop services. Manage Drivers, Assistant Passengers, Schools, Students, Routes and Daily Routes. Driver pick a student at home and drop at school.

Major modules of the system are

- Admin Module
    - ✓ User
    - ✓ Group
    - ✓ Roles and Access Rights
- Manage CMS Pages of Company Route Module
    - ✓ Add Route and Details

- ✓ Manage Multiple Trip
- ✓ Clone Route
- ✓ Print Route
- ✓ Export data in Excel
- Daily Route Module
  - ✓ Add Daily Route and Details
  - ✓ Generate daily route
- Drivers Module
  - ✓ Add Drivers record – Add all information of Drivers
  - ✓ Payment History
  - ✓ Reports
- Passenger Assistant Module
  - ✓ Add Passenger Assistant record – Add all information of Passenger Assistant
  - ✓ Payment History
  - ✓ Report
- School Module
  - ✓ Add School - Add all information of School
- Student Module
  - ✓ Add Student - Add all information of Student
  - ✓ Reports

2) **Project Name: QUAD Scaffolding**

Responsibilities: Documents Analysis, Responsible for Black Box Testing, Involved in Manual Testing of the Application, Responsible for Functional Testing, System Testing and Regression Testing, Interacted with developers, users and various members of my team to discuss and to resolve defects and their priorities, Participated in peer reviews of test cases, Functionality Testing, Re-testing, End-to-End Testing, Server Updating.

Project Description: In this website we tested the stock management of the building related instrument and forecast which instrument is shortage in warehouse and generate the report at the month end

3) **Project Name:Anmol Guashala**

Responsibilities: Documents Analysis, Responsible for Black Box Testing, Involved in Manual Testing of the Application, Responsible for Functional Testing, System Testing and Regression Testing, Interacted with developers, users.Functionality Testing,Re-testing, End-to-End Testing, Server Updating.

Project Description: In this website we Collect information about the cow.Medical condition of cow and production and distribution of the milk generate the report as per the milk cnsume by the consumers. System send the message to the consumer how much of milk consume by the consumer at the month end and generate the report of cow health and production

4) **Project Name: Emprise**

Project Description: In this we tested the website that related to the tax,add the investor information regarding their asset and calculate the as per the UK guidelines and create the report of their investment process their document for the ocr and collect information from the document

Software Skills

Databases:	MY SQL Server
Programming Languages:	Html, Css C, C++, Core Jav
Testing tools	Jira, Mantis.

Certificates

- Training in Amazon Cloud Solution Architech (Completion Certificate)
- Complete Linux Training ,issue by the udemy (Completion Certificate)
- Training in RedHat Certified System Administration (Completion Certificate)
- Participated in Tech quiz 2019 organized in SSVPS College of Engineering,Dhule.
- Participated in National level event Impulse 2019 in SSVPS College Dhule.
- Participated in Entrepreneur Awareness Camp by MCED.
